

# SAMUEL ALEXANDER V

## SOFTWARE DEVELOPER AND PENTESTER

+91 75026 15599

Coimbatore, TamilNadu

alexanderhere2005@gmail.com

### ABOUT ME

Passionate Computer Science student with hands-on experience in building web applications and exploring cybersecurity challenges. Skilled in Java, Python, and Linux, with a strong foundation in web and application security. Enthusiastic about applying problem-solving skills to secure systems and contribute innovative solutions in real-world software engineering and cybersecurity roles.

### SKILLS

- **Programming :** Java, Python, SQL
- **Tools :** Git, Linux, Docker
- **Security :** Burp Suite, Wireshark, OWASP practices, Metasploit
- **Web :** HTML, CSS, React, Spring Boot, Django

### EDUCATION

#### B.E Computer Science and Engineering (Cyber Security)

- Sri Krishna College of Engineering and Technology (SKCET), Coimbatore
- 2022 – Present | CGPA: 8.4 (upto 3rd year)

#### Diploma in Computer Engineering

- CIT Sandwich Polytechnic College, Coimbatore
- 2019 – 2022 | Percentage: 92%

### WORK EXPERIENCE / INTERNSHIPS

#### Intern - Embedded Systems and IOT

Enthu Tech, Peelamedu | 14 days

- Gained hands-on experience working with IoT devices and embedded systems.
- Built small IoT projects applying microcontroller-based solutions.

#### Intern - Artificial Intelligence

Novitech, Coimbatore | 30 days

- Worked on AI projects including face and object detection.
- Applied machine learning concepts to build small scale AI applications

### ACHIEVEMENTS

- **2nd Place** – Inter-college Paper Presentation on Virtual Reality and Augmented Reality, CIT Sandwich Polytechnic College.
- **1st Place** – College-level Web Designing Competition, CIT Sandwich Polytechnic College.
- **Top 5%** - Try Hack Me, A Hands-on Cyber Security and Ethical Hacking Learning Platform

### RESEARCH AND PATENT WORKS

- **Published a patent** on An Intelligent Tamper-Evident Weighing Apparatus with Multi-Sensor Security and Data Authentication Framework
- **Published a patent** on Wearable Smart Air Filtration Helmet with AQI-Based Automatic Control and Filter Life Monitoring

### PROJECTS

- **E-commerce site using Django** – built a fully featured commercial level site with prioritising security .
- **Mr. Defender** - A NLP based kibana query generator and automation of tasks using SOAR .
- **Phishing-url-detection extension** - built a cloud based phishing url detection browser extension.
- **Face-detection using AIMA** - built a face detection using python and opencv.
- **Hotel booking system using React** - built a basic level site on react and mysql
- **College query chatbot** - built a basic chatbot using php and mysql.

### CERTIFICATIONS

- **Certified Ethical Hacker** - CISCO
- **AWS Certified Developer - Associate Certification** - Infosys Springboard
- **Google Cloud Computing Foundation** - Google
- **AI for App Building** - Google
- **Data Structures and Algorithms Using Java** - An Interactive Way - Infosys Springboard
